

Announcement editorial on Nanotechnology and Advanced Materials

Witness valuable scientific talks and discussions to participate and contribute to future innovative ideas and technologies about Nanotechnology and Advance Materials

Jiangtao Cheng

Associate Professor Virginia Polytechnic Institute and State University USA, E-mail: chengjt@vt.edu

Conference series proudly presents Nanotech Expo 2020 which is scheduled to take place in Geneva, Switzerland during July 09-10, 2020 takes the privilege to invite all the participants, speakers, students, delegates, sponsors, exhibitors from all over the world to attend our conference

Nanotechnology and Advance Materials together is a multidisciplinary field, interesting and interactive scientific sessions have been designed accordingly for this conference.

These events cover wide range of critically important sessions that deals with the current research development in the field of Nanotechnology and Materials Science. These conferences act as a best platform for attendees to learn about the recent trends in Nanotechnology and Materials Science. You can refresh your insights about the current circumstance.

Our Nanotechnology and Advance Materials conferences mainly focus on topics such as: Nanotechnology & Advanced Materials, Emerging materials and nanotechnology, Science and Technology of Advanced Materials, Advanced Functional Materials and Nanoscience, Advanced Nanomaterials, Advancing cellulose-based nanotechnology, Nano polymers, Nanotubes and Nano porous

Materials, Smart Materials and Technologies, Stronger Materials/Higher Strength Composites, Nano biomaterials, Polymer Science and Engineering, Characterization and modeling of Nanostructures and Devices

Benefits of Attending this Conference:

- Accepted Abstracts will be published in the respective journals and will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref (Free abstract publishing).
- Speaker and Abstract pages created in Google on your name would get worldwide acknowledgment to your profile and Research.
- The Career Guidance Workshops to the Graduates, Doctorates and Post-Doctoral Fellows, Certificate Accreditation from the Organizing Committee of presentation/participation.
- Best Poster and Young Researcher Award. Symposium by Experts Team. Best platform to develop new partnership & collaborations. Network development with both Academia and Business.

Conference Series LLC Ltd extends its warm gratitude to all the Honorable Guests and Keynote Speakers of Euro Nanoscience 2019:

- **Marie-Helene Delville**, University Bordeaux, France
- **Kevin L Koudela**, The Pennsylvania State University, USA
- **Marie-Helene Delville**, University Bordeaux, France
- **Aleksey Vasiliev**, East Tennessee State University, USA
- **Melquisedec Vicente M**, Instituto Politécnico Nacional-CIITEC, Mexico
- **Chunlei Wan**, Chunlei Wan, China

For more detailed information, visit <https://nano.nanotechconferences.org/>

Targetted Audience/Participants:

Deans, Departmental chairs, Vice Deans, Presidents, Vice Presidents of Nanotechnology and Materials Engineering Universities, research Institutes, and Association. Professor and student's, from academia who are in the field of Nanotechnology and Materials Engineering, Director's, Manager's and Business Intelligence Experts, Departmental Managers / CEO's

Conference Subject Advantages: This conference aim to offers a great opportunity to make new contacts in the field of Nanotechnology and Materials Engineering which involves the designs and discoveries of new materials. The enlightenment originated

when researchers began to use analytical thinking from Physics, Chemistry, and Engineering. The conference will provide a platform to share new ideas relating to recent developments in Nanotechnology. Material Engineering Scientists and researchers will come to know about more information regarding their research subjects and will be able to establish their view at a global level. The Nano Mat 2020 conference will be useful to participants both from the Academics and Industry working in all the domains of Nanotechnology and Materials Engineering. The Nano Mat 2020 is especially intended for Investors, Entrepreneur, Capitalists, Venture and other readers with a need to know where the Nanotechnology market is headed in the future. The members around the globe focused on learning about the Pharmaceutical Nanotechnology and the developments in the most recent techniques also newest updates in this field.

Major challenges:

- Visa Issues
- Climate Conditions
- Financial Constrains
- Travel Issues
